CAREER OBJECTIVE

To become a specialist in Information Security, Web and Mobile application development.

SKILLS

- Web development
- Network administration
- Graphic design and Photography
- Mobile application development
- Statistical analysis

EXPERIENCE

Technical assistant, Intersol Kenya

June - November 2014

My job entailed performing demonstrations, installation and support of interactive solutions, zero client computing facilities, car tracking solutions, networking and audio visual solutions for Intersol K Ltd and its shareholder Premier Technologies Ltd.

Accomplishments

- Developed a website for the company <http://www.intersol.co.ke/>
- Wrote and presented an academic paper on cost-efficient education delivery using zero clients

Intern, K-unity Sacco

May - July 2012

My duties included back end database administration using BR MFS and network administration. I also helped in user support and staff training and developed a website for the Sacco

Accomplishments

- Developed a website for the company - <http://k-unity.co.ke/>
